

Replacing a 175W lighting system with an 85W induction lighting system saves more than just money.

Lighting systems account for up to 50% of energy costs for commercial properties. Reluminate can show you how to reduce waste, reduce costs and make mother nature happy.

Find out about energy saving updates and preventative maintenance programs at [Reluminate.com](http://Reluminate.com) or call 763-548-1344
